

COaaS Overview

What is COaaS?

GrintOps COaaS manages the provisioning, optimization, and reliability of your cloud infrastructure across providers.

Ideal For

- Teams scaling from shared hosting to cloud
- SaaS apps that require uptime and observability
- Companies adopting IaC or multi-cloud

Plans

- Starter: Provisioning templates + monitoring setup
- Pro: + Auto-scaling, backup & health checks
- Enterprise: + Cost optimization, HA setup, compliance policy
